

RELEASE OF MOBILE GAME BRAKE AWAY

LONDON, UK – 11 October, 2021 – British game studio Coderact announced today the release of Brake Away, their latest mobile game for iOS and Android, and its immediate availability on the App Store and on Google Play.

Brake Away is a casual racing game for mobile devices. The player is in control of multiple cars which run endlessly inside a closed track. Through the use of simple tap-based controls the player will have to brake the cars at the right time to stop them from crashing. As time passes new cars will enter the road, increasing the difficulty. The goal is to go as far as possible and get the highest score.

Players will earn coins as they play and use them to unlock new exciting tracks. The game also features a collection of flashy cars which can also be unlocked by using coins.

Brake Away is free-to-play and is available for iOS and Android devices.
